

PROPHY 500

FUNZIONALITÀ A PORTATA DI MANO
FUNCTIONALITY AT YOUR FINGERTIPS

Auch mit Absaugung
lieferbar

Dieses Behandlercart der neuesten Generation wird für Sie kundenspezifisch zukunftsicher ausgestattet.
 Es wurde mit hochbeständigen zwei cm dicken PolyUrethan Gehäusen auf Stahlkonstruktion gefertigt. Der seit langem bewährte Werkstoff widersteht Vergilbungen, Rissen und Verbiegungen, und eignet sich hervorragend für Hygieneanwendungen - Spray- und Wisch Desinfektion. Das Fahrgestell läuft auf antistatischen Hartbodenrollen, leicht und leise.

Prophy 900 surgical cart has all the tools and features you need for surgery and is designed to ensure maximum operational efficiency. The setup of the available tools can be customized based on the specific clinical needs: Prophy 900 features a instrument table that can be set up for maximum five different instruments.

The quality of the materials used ensures utmost sturdiness and cutting-edge design: the 2cm thick polyurethane instrument table is covered with an epoxy paint resistant to disinfectants. Unlike plastics, the Prophy 900 coating does not turn yellow and does not crack.

- **Maximum efficiency:** it guarantees smooth work processes, providing all the necessary tools.
- **Designed to ensure operational efficiency:** it is equipped with all the functions necessary to carry out the interventions.
- **All parameters can be perfectly kept under control** thanks to the wide LCD control panel with optional soft touch keys and progressive control pedal.
- **Indestructible:** 2 cm thick polyurethane instrument table.
- **Easy movement** thanks to the comfortable anti-static casters and the pedal shelf.

Autonome, hygienische Spraywasserversorgung.
 Auf Wunsch zweites Flaschensystem für Medikamente
 Kein Aufpumpen mehr.
Wasserversorgung entspricht der Trinkwasserverordnung
The separate water supply guarantees total operating autonomy; there is also an independent spray adjustment for each instrument.

Grundausstattung mit vier instrumentenlinien und einer 3-Funktions-spritze Wasser, Luft, Spray
Thanks to the 5 compartments of the instrument table, Prophy 900 can be set up with the most suitable equipment for every need.

Traytablett-Träger für zwei Standard Trays

Prophy 900 features a large table top on which are inserted two tool trays, 175x280x15 mm, removable and autoclavable in order to ensure maximum hygiene, which is absolutely necessary for surgery.

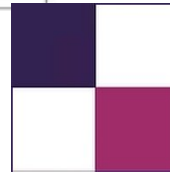

Option: Bedienpaneel für Antriebe, Motore, Scaler..
 Das Cart erkennt die gezogenen Instrumente automatisch.
 Sie können Ihre bevorzugten Behandlungs Parameter einspeichern.

PNEUMATISCHE, sichere Ansteuerung aller Instrumentenlinien.
 EI. Wandler nur für entsprechende Antriebe

LCD CONTROL PANEL

Prophy 900 can be equipped with an additional control panel with soft touch keys: thanks to the LCD screen, you can control all parameters.

The cart features a technology that automatically recognizes the selected instrument (micromotor, high speed handpiece or scaler) and allows you to set parameters and the operating mode.

Komfortabler Fußkontroller:

Sie steuern mit nur einem Fuß alle aktivierten Instrumente, und Beschleunigen nach Wunsch. Arbeiten mit oder ohne Spray mit einer Fußbewegung. Das Pedal wird auf dem Bodenträger des Fahrgestells abgestellt. Damit ist beste Mobilität gegeben.

FEED-FEK PROGRESSIVE PEDAL

The Feed Fek progressive control pedal activates all instrument functions. Spray actuation can always be on by pressing the central button and activating the progressive lever. It can also be activated, if necessary, by pressing the lower lever only. It also features a button for reverse movement of the micromotor. The pedal shelf allows you to rest the pedal and move comfortably.
